Singapore
Aug 2021 – May 2025

WORK EXPERIENCE

Ernst & Young (EY) Associate Consultant, Technology Risk Advisory & Assurance

Singapore
Nov 2025 – Present

- Advised 10+ multinational clients in BFSI, Retail, Public Sector, and IT on the effectiveness of IT General Controls (ITGC), Privileged Access Mechanisms, and assessed compliance with regulatory requirements (e.g., MAS TRM, OSPAR, MAS Cyber Hygiene) by mapping internal controls against regulatory guidelines to identify & mitigate operational inefficiencies, enhancing overall risk management posture and customer satisfaction
- Led in-depth process walkthroughs for role-based access controls, change management, system migrations, and privileged access monitoring; Delivered tailored recommendations to address control deficiencies leading to greater data security (and fairness) over financial statement reporting, improving service reliability and customer trust

Eastspring Investments (*subsidiary of Prudential plc*) Programme Management Analyst (Contract)

Singapore
Sep 2025 – Nov 2025

- Supported the COO (Transformation) Office in the outsourcing of middle office securities services to HSBC & Blackrock from BNP Paribas, aimed at realising operational & cost efficiency of ~\$43Mn over 7 years; Collaborated with cross-functional teams based in the UK, Australia, Singapore & India
- Developed detailed RAID logs, action trackers, & presentation material for structured project monitoring; Coordinated and managed monthly Steerco meetings to convey critical updates and milestones to the executive management committee (EMC)

Ernst and Young (EY) Business Consulting (Telecom, Media, Technology) Intern

Singapore
Jan 2024 – Aug 2024

- Worked directly with the senior leadership (Partner, TMT Business Consulting) on strategic account planning and sales enablement initiatives in ASEAN, gaining exposure to C-suite-level business development processes
- Assembled 10+ case studies and credentials with a focus on business outcomes delivered, and project-managed RFP response for an AI-driven Enterprise Architecture initiative from an Indonesian telco (deal size: S\$800,000)
- Delivered actionable market insights around overall IT spending and transformational initiatives as a percentage of revenue for a major wildlife ecosystem player in Singapore
- Handled PMO and documentation for a low-code systems consulting engagement with a public sector client, in a total team size of 50+, contributing to one of the largest projects (Annual Revenue > S\$6,000,000) of EY Singapore
- Maintained a daily repository of system issues via Atlassian JIRA and MS Excel; conducted extensive data analysis and reported the findings to cross-functional track leads for faster resolution of incidents, improving service delivery
- Redefined issue type categorisation for 1000+ user queries, improving monthly SLA and KPI targets by +5%; Additionally, developed SOPs to ensure correct issue classification and root cause analysis in future

Circles Life Intern (CEO's Office)

Singapore
May 2023 – Jul 2023

- Developed and pitched 5 ideas as part of innovation engine engagement with a leading Japanese telecom operator; 2 ideas selected with overall deal size > S\$150,000; Presented to C-Level stakeholders for regulatory alignment and decision-making
- Conducted idea-specific E2E market research, designed 3 MVP tests, visualised overall customer journey, emphasising on brand narrative and proposition
- Consulted different departments (e.g., Engineering, Product, Design) to manage product relaunch and change requests; contributed towards determining product-market fit (PMF); created comprehensive project trackers for structured tracking
- Led a new community engagement campaign, and grew the social media audience by +200% through targeted marketing strategies and brand storytelling; Executed offline product marketing initiatives to enhance engagement for a new telco product

LEADERSHIP EXPERIENCE

Sime Darby Motors Student Consultant

Singapore
Aug 2023 – Oct 2023

- Proposed 4 solutions (around GenAI, omni-channel CX, and multi-channel marketing) to elevate customer experience and onboarding journey for a major automotive retailer based in Southeast Asia; Part of NTU PEAK Student Leadership Program (1/45 students selected from a pool of 500+)

IEEE NTU Student Branch Sales Director

Singapore
Aug 2022 – May 2024

- Secured S\$30,000+ in sponsorship from Google, TikTok & MSD for our annual flagship hackathon attended by 300+ students; Managed corporate partnerships, ensured sponsorship activations, & executed a targeted marketing strategy
